Here is what you can expect:

Some radios will send us their playlists or a feedback and some will present their playlists online but not a lot. We will forward it to you.

We deliver digital. What we will see is how many times the songs were downloaded but we won't see who downloaded them. We can send you a list that show the downloads.

We can't give you a guarantee that there will be huge airplay. It depends on so many things.

Some of the artists that we promoted reached some country charts in Europe and Australia. But this doesn't mean that you will reach the charts. We hope that we will see you on some charts but we can give you any guarantee.

We think our prices are very fair!

Other services charge 100\$ for one song (but they are sending out CD's)
